

Vision Statement for the Muskwa-Kechika Advisory Board

We, the Advisory Board, in partnership with the provincial government, will be stewards of the Muskwa-Kechika Management Area (M-KMA).

We will provide direction and leadership in balancing industrial and other human activity with the sensitive management and protection of a vast and unique natural environment.

We will ensure that the fisheries, wildlife and wilderness values of the M-KMA will be maintained for countless generations.

In working toward this vision, the Advisory Board will promote and encourage effective and innovative resource management methods, based on the highest quality of research. Through research and funding activities, we seek world class management, monitoring, and mitigation to minimize the human footprint.

Through educational and promotional activities, the Advisory Board will raise awareness about the M-KMA's globally significant environmental values, aboriginal and non-native inhabitants, and their cultural histories.
